Better Sleep – Addressing Common Sleep Problems in Parkinson’s Disease and Other Movement Disorders
Adriana Palade, M.D.

Dr. Palade is Associate Professor of Neurology at the University of Louisville School of Medicine, Neurology Residency Program Director, and board certified in neurology, clinical neurophysiology, epilepsy and sleep medicine. She will provide an overview of common sleep problems in Parkinson’s disease and other movement disorders and highlight treatment options.

Friday, April 26
Deep Brain Stimulation Therapy for Parkinson’s Disease and Tremor
Joseph Neimat, M.D. and Victoria Holiday, M.D.

Dr. Holiday is Assistant Professor of Neurology at the University of Louisville School of Medicine, movement disorders specialist and Medical Director of the Deep Brain Stimulation Program at UofL. Dr. Joseph Neimat is the Endowed Chair of Neurosurgery at University of Louisville with a focus of expertise on functional neurosurgery for movement disorders and epilepsy. Together, they will address new developments in the area of surgical treatment of Parkinson’s disease and tremor.
Friday, May 24
Research Updates in Parkinson’s Disease: News from the American Academy of Neurology Annual Conference

Kathrin LaFaver, M.D.

Dr. LaFaver is an Assistant Professor of Neurology at the University of Louisville School of Medicine, Director of the Parkinson’s and Movement Disorders Clinic and Raymond Lee Lebby Chair in Parkinson’s disease research. She will discuss research highlights on diagnosis and treatment of Parkinson’s disease from the 71st Annual Meeting of the American Academy of Neurology in Philadelphia 2019.

Friday, June 21
Addressing Mood and Memory Issues in Parkinson’s Disease

Dr. Robert Underwood, Ph.D.

Dr. Underwood is a neuropsychologist with Frazier Rehab Institute, specializing in assessment of dementia, Parkinson’s disease and related movement disorders, stroke, brain injury, and psychiatric illness. He earned his Ph.D. in Counseling Psychology from the University of Memphis in 2002, followed by an ABPN-supervised neuropsychology post-doctoral position in private practice. Since 2012, Dr. Underwood has served as a Board member for the Parkinson’s Support Center of Kentuckiana. He will address diagnosis, management and practical tips on mood and memory issues in Parkinson’s disease.
